

Arizona State University Tuition Proposal FAQ for Academic Year 2023-2024

Why is ASU adjusting tuition?

Arizona State University recognizes that any decision to advance tuition adjustments needs to be assessed and determined with attention to the potential impact to students and their families. In every case, changes to tuition take into account the resources involved in sustaining and improving the effective delivery of the world-class, high-value education expected from ASU. As learner needs, interests and expectations change over time, ASU listens and responds by expanding access to its offerings, developing and maintaining innovative and useful programs and services, and embracing new technology. All of this occurs within the framework of the ASU charter, and specifically, our responsibility for the social, economic, cultural and overall well-being of those we serve as a National Service University.

How does ASU tuition compare to other universities?

ASU continues to be the best college value in Arizona, with the lowest tuition among the three state universities and one of the lowest among Pac-12 universities. ASU continues its designation as one of the “best buy” college values in the U.S, for providing a top-tier, competitive higher education experience while maintaining its affordability.

Does this tuition increase follow President Crow’s pledge not to raise Arizona resident tuition by more than 3 percent a year?

Yes. Twelve years ago, President Crow vowed to keep future ASU tuition adjustments to 3% or less for Arizona resident undergraduate students and as close to zero as possible.
